

Working with an Estate Planning Attorney

An estate planning attorney usually doesn't come to mind unless you are in a situation where you need their service. So, what exactly is an estate planning attorney and where can you find one?

An estate planning attorney is a type of lawyer who understands the legal processes of getting your affairs in order in the event you become incapacitated or pass away. They specialize in estate and inheritance law and can help you minimize loss and headaches for your loved ones.

What Does an Estate Planning Lawyer Do?

An attorney practicing in this field drafts living trusts and develops plans to mitigate or avoid estate taxes. They work to ensure that your life's savings and assets are safe from beneficiaries' creditors when you pass on.

Estate planning lawyers can prepare powers of attorney and health care directives that arrange for someone to take care of your affairs if you should ever become mentally incapacitated.

How Much Does It Cost?

Fees may vary but in the long run, without proper planning, you stand the chance of losing far more money and headaches if you are not prepared. What are you exactly paying for? You're paying for their knowledge of estate laws and expertise working with the courts. He represents you!

Where to Find an Attorney

It can be difficult to find an attorney you are comfortable with and trust, especially since you'll be revealing personal and financial information - and trusting them to do the right thing when you pass. Most people ask friends and family members for referrals. The state bar can be a resource too.

As a member of Nymeo, you have direct access to Estate Planning Attorney [Douglas K. Thornton](#). He will work with you in developing a comprehensive plan.
